Subject: McConkey/Sesko Property
[Gasworks Memo.pdf](#)

FYI - I contacted Parametrix to find out if they had information regarding the Phase I work conducted for the McConkey Property. Attached is a memo that Dave Dinkuhn prepared – it summarizes all work performed at both the McConkey and adjacent Sesko Properties. We apparently have the files here in PW, and I'll get them located in the event they could be used to assist McConkey's grant pursuit.

Have a great weekend.

Tom

Tom,
Here is a summary memo I put together for Lynn under Dan Miller's brownfields grant. The figure is being fixed and will follow in about an hour. I'd like to conference with the Mayor to answer any questions she might have.
Dave
